

CHLORONITE®

CHEMICAL GLOVES

LIGHTWEIGHT ADVANCED CO-POLYMER TECHNOLOGY

Chloronite® is a lightweight chemical glove that exceeds industry standards. The snug fit allows for an extremely dexterous performance so you can say goodbye to big chunky chemical gloves!

Withstands a vast range of hazardous chemicals, boasting a rare 9-letter rating under the EN374 standard. Trusted by the front lines – Chloronite® Chemical Gloves are certified for NATO and NSN codification for use by the defence force and aviation industry.

The proven twin material blend, co-polymer, is the result of exhaustive research and development by The Glove Company® to produce a world leading chemical protection solution.

Ideal for use with damaging solvents, volatile fuels, oils, corrosive acids, burning alkali and hazardous chemicals.

BENEFITS

- Extended splash protection **300mm Long Cuffs**
- Empowers unmatched dexterity thanks to the agile twin material blend
- Accelerator-free design allows extended comfortable wear
- Textured fingers enhance grip in wet, slippery, and dry environments
- Vibrant red colour boosts visibility in low and dark light conditions
